

## Test Scenario for Oracle Account creation Password policy

Passwords must have **upper** and **lower** case letters, at least **1 number** and **special character**, not match or contain **email**, and be at least **8 characters long**.

1. Verify if the password field has upper case, lower case, at least 1 number and special character, not email and at least 8 characters long 0 0 0 0 0
2. Verify if the password field has upper case, no lower case, at least 1 number and special character, not email and less than 8 characters 0 0 0 0 1
3. Verify if the password field has upper case, lower case, at least 1 number and special character, email and at least 8 characters long 0 0 0 1 0
4. Verify if the password field has upper case, lower case, at least 1 number and special character, email and less than 8 characters 0 0 0 1 1
5. Verify if the password field has upper case, lower case, at least 1 number and no special character, not email and at least 8 characters long 0 0 0 1 0 0
6. Verify if the password field has upper case, lower case, at least 1 number and no special character, not email and less than 8 characters 0 0 0 1 0 1
7. Verify if the password field has upper case, lower case, at least 1 number and no special character, email and at least 8 characters long 0 0 0 1 1 0
8. Verify if the password field has upper case, lower case, at least 1 number and no special character, email and less than 8 characters long 0 0 0 1 1 1
9. Verify if the password field has upper case, lower case, no number and at least 1 special character, not email and at least 8 characters long 0 0 1 0 0 0
10. Verify if the password field has upper case, lower case, no number and at least 1 special character, not email and less than 8 characters long 0 0 1 0 0 1
11. Verify if the password field has upper case, lower case, no number and at least 1 special character, email and at least 8 characters long 0 0 1 0 1 0
12. Verify if the password field has upper case, lower case, no number and at least 1 special character, email and less than 8 characters long 0 0 1 0 1 1
13. Verify if the password field has upper case, lower case, no number and no special character, not email and at least 8 characters long 0 0 1 1 0 0
14. Verify if the password field has upper case, lower case, no number and no special character, not email and less than 8 characters 0 0 1 1 0 1
15. Verify if the password field has upper case, lower case, no number and no special character, email and at least 8 characters long 0 0 1 1 1 0
16. Verify if the password field has upper case, lower case, no number and no special character, email and less than 8 characters long 0 0 1 1 1 1
17. Verify if the password field has upper case, no lower case, at least 1 number and special character, not email and at least 8 characters long 0 1 0 0 0 0
18. Verify if the password field has upper case, no lower case, at least 1 number and special character, not email and less than 8 characters long 0 1 0 0 0 1
19. Verify if the password field has upper case, no lower case, at least 1 number and special character, email and at least 8 characters long 0 1 0 0 1 0
20. Verify if the password field has upper case, no lower case, at least 1 number and special character, email and less than 8 characters long 0 1 0 0 1 1
21. Verify if the password field has upper case, no lower case, at least 1 number and no special character, not email and at least 8 characters long 0 1 0 1 0 0
22. Verify if the password field has upper case, no lower case, at least 1 number and no special character, not email and less than 8 characters long 0 1 0 1 0 1
23. Verify if the password field has upper case, no lower case, at least 1 number and no special character, email and at least 8 characters long 0 1 0 1 1 0

24. Verify if the password field has upper case, no lower case, at least 1 number and no special character, email and less than 8 characters long 0 1 0 1 1 1
25. Verify if the password field has upper case, no lower case, no number and at least 1 special character, not email and at least 8 characters long 0 1 1 0 0 0
26. Verify if the password field has upper case, no lower case, no number and at least 1 special character, not email and less than 8 characters long 0 1 1 0 0 1
27. Verify if the password field has upper case, no lower case, no number and at least 1 special character, email and at least 8 characters long 0 1 1 0 1 0
28. Verify if the password field has upper case, no lower case, no number and at least 1 special character, email and less than 8 characters long 0 1 1 0 1 1
29. Verify if the password field has upper case, no lower case, no number and no special character, not email and at least 8 characters long 0 1 1 1 0 0
30. Verify if the password field has upper case, no lower case, no number and no special character, not email and less than 8 characters 0 1 1 1 0 1
31. Verify if the password field has upper case, no lower case, no number and no special character, email and at least 8 characters long 0 1 1 1 1 0
32. Verify if the password field has upper case, no lower case, no number and no special character, email and less than 8 characters 0 1 1 1 1 1
33. Verify if the password field has no upper case, lower case, at least 1 number and special character, not email and at least 8 characters long 1 0 0 0 0 0
34. Verify if the password field has no upper case, lower case, at least 1 number and special character, not email and less than 8 characters 1 0 0 0 0 1
35. Verify if the password field has no upper case, lower case, at least 1 number and special character, email and at least 8 characters long 1 0 0 0 1 0
36. Verify if the password field has no upper case, lower case, at least 1 number and special character, email and less than 8 characters 1 0 0 0 1 1
37. Verify if the password field has no upper case, lower case, at least 1 number and no special character, not email and at least 8 characters long 1 0 0 1 0 0
38. Verify if the password field has no upper case, lower case, at least 1 number and no special character, not email and less than 8 characters 1 0 0 1 0 1
39. Verify if the password field has no upper case, lower case, at least 1 number and no special character, email and at least 8 characters long 1 0 0 1 1 0
40. Verify if the password field has no upper case, lower case, at least 1 number and no special character, email and less than 8 characters 1 0 0 1 1 1
41. Verify if the password field has no upper case, lower case, no number and at least 1 special character, not email and at least 8 characters long 1 0 1 0 0 0
42. Verify if the password field has no upper case, lower case, no number and at least 1 special character, not email and less than 8 characters 1 0 1 0 0 1
43. Verify if the password field has no upper case, lower case, no number and at least 1 special character, email and at least 8 characters long 1 0 1 0 1 0
44. Verify if the password field has no upper case, lower case, no number and at least 1 special character, email and less than 8 characters 1 0 1 0 1 1
45. Verify if the password field has no upper case, lower case, no number and no special character, not email and at least 8 characters long 1 0 1 1 0 0
46. Verify if the password field has no upper case, lower case, no number and no special character, not email and less than 8 characters 1 0 1 1 0 1
47. Verify if the password field has no upper case, lower case, no number and no special character, email and at least 8 characters long 1 0 1 1 1 0
48. Verify if the password field has no upper case, lower case, no number and no special character, email and less than 8 characters 1 0 1 1 1 1
49. Verify if the password field has no upper case, no lower case, at least 1 number and special character, not email and at least 8 characters long 1 1 0 0 0 0

50. Verify if the password field has no upper case, no lower case, at least 1 number and special character, not email and less than 8 characters 1 1 0 0 0 1
51. Verify if the password field has no upper case, no lower case, at least 1 number and special character, email and at least 8 characters long 1 1 0 0 1 0
52. Verify if the password field has no upper case, no lower case, at least 1 number and special character, email and less than 8 characters 1 1 0 0 1 1
53. Verify if the password field has no upper case, no lower case, at least 1 number and no special character, not email and at least 8 characters long 1 1 0 1 0 0
54. Verify if the password field has no upper case, no lower case, at least 1 number and no special character, not email and less than 8 characters 1 1 0 1 0 1
55. Verify if the password field has no upper case, no lower case, at least 1 number and no special character, email and at least 8 characters long 1 1 0 1 1 0
56. Verify if the password field has no upper case, no lower case, at least 1 number and no special character, email and less than 8 characters 1 1 0 1 1 1
57. Verify if the password field has no upper case, no lower case, no number and at least 1 special character, not email and at least 8 characters long 1 1 1 0 0 0
58. Verify if the password field has no upper case, no lower case, no number and at least 1 special character, not email and less than 8 characters 1 1 1 0 0 1
59. Verify if the password field has no upper case, no lower case, no number and at least 1 special character, email and at least 8 characters long 1 1 1 0 1 0
60. Verify if the password field has no upper case, no lower case, no number and at least 1 special character, email and less than 8 characters 1 1 1 0 1 1
61. Verify if the password field has no upper case, no lower case, no number and no special character, not email and at least 8 characters long 1 1 1 1 0 0
62. Verify if the password field has no upper case, no lower case, no number and no special character, not email and less than 8 characters 1 1 1 1 0 1
63. Verify if the password field has upper case, lower case, at least 1 number and special character, not email and at least 8 characters long 1 1 1 1 1 0
64. Verify if the password field has no upper case, no lower case, no number and no special character, email and less than 8 characters 1 1 1 1 1 1
65. Verify if the password field has blank space \_\_\_\_\_
